PROJECTS

EventBite
June 2019 · Austin, TX · event-bite.herokuapp.com

A mobile responsive event search application that lets you discover the upcoming entertainment happening in your local area and the restaurants located nearby. Utilized HTML, CSS, Bootstrap, JavaScript, jQuery, and APIs.

Train Scheduler
June 2019 · Austin, TX · elaintran.github.io/TrainScheduler

Train Scheduler is a schedule application that stores train data and reflect updates real-time. Users are able to submit, edit, and delete train information from the table. Utilized HTML, CSS, Bootstrap, JavaScript, jQuery, Moment.js, and Firebase.

EXPERIENCE

Office Assistant - A Star Signs & Printing, LLC
Feb 2018 – Sept 2018 · Austin, TX

Provided administrative support in the multitasking environment and utilized Adobe Photoshop to create marketing material for various businesses in Austin and its surrounding areas.

Marketing Consultant - Vietnamese American Community of Austin, Texas
Oct 2017 – Feb 2018 · Austin, TX

Conceptualized and designed logo, banners, and print collateral for events hosted by VACAT. Devised advertising tactics with marketing team to appeal to the greater Austin community, achieving an attendance rate of 2,000+.

EDUCATION

University of Texas at Austin Coding Bootcamp
