PROJECTS

BookTracker
August 2019 · Austin, TX · https://github.com/elaintran/BookTracker

A React-based book search and reading status management application that allows users to browse the Google Books API and save books to their reading list. Utilized React, MongoDB, Mongoose, Node.js, Express.js, and Axios.

Heroes United
July 2019 · Austin, TX · https://github.com/elaintran/heroes-united

A multi-level, turn-based browser game featuring user authentication and session storage via Passport.js and MySQL. Designed a majority of the user interface, developed a stat distribution system, incorporated D3.js to visualize data in a graph format, and assisted in Express routing and data integration on select pages.

EventBite
June 2019 · Austin, TX · https://github.com/elaintran/EventBite

An event search application that lets you discover the upcoming entertainment happening in your local area and the restaurants located nearby. Responsible for creating a mobile responsive user interface utilizing HTML, CSS, jQuery, and Bootstrap components.

EXPERIENCE

Office Assistant - A Star Signs & Printing, LLC
February 2018 – September 2018 · Austin, TX

Provided administrative support in the multitasking environment and utilized Adobe Photoshop to create marketing material for various businesses in Austin and its surrounding areas.

Marketing Consultant - Vietnamese American Community of Austin, Texas
October 2017 – February 2018 · Austin, TX

Conceptualized and designed logo, banners, and print collateral for events hosted by VACAT. Devised advertising tactics with marketing team to appeal to the greater Austin community, achieving an attendance rate of 2,000+.

EDUCATION

University of Texas at Austin Coding Bootcamp
May 2019 – August 2019 · Austin, TX
Full Stack Web Development Certificate

University of Texas at Austin
August 2013 - August 2017 · Austin, TX
Bachelor of Science in Nutrition / McCombs Business Foundations Certificate
